

Spectrum Space Social Groups

Come join us!

Explore new experiences

Learn new skills

Make friends

Have fun

and above all, be yourself!

Our social groups allow for participants to explore their strengths in a fun and engaging atmosphere. Where possible we host a special interest project so you can explore activities such as coding, film making, art, digital media and cooking.

We aim to offer a range of activities based on interests our participants have identified which creates a natural social environment where you have the opportunity to meet like-minded peers and have some new fun experiences along the way!

Email enrolments@spectrumspace.org.au to submit your expression of interest or visit spectrumspace.org.au for more information
